Under DHBVN.

**DSM INSTRUCTION NO.IV**

Memo No.Ch. 4/EA-105

Dated: 25.03.2008

**Subject: High efficiency street light program – single phase transformers - DSM measures.**

Nigam intends to ensure energy conservation in street lights across DHBVN. Nigam intends to bring in remote control technology in street light systems. Nigam is going to provide single phase transformers for street lighting. The MM wing of the Nigam shall be shortly procuring single phase transformers with remote control facility. Accordingly Nigam has to chalk out a program to shift all street light systems to single phase transformers.

You are requested to intimate the number of street light connections under your jurisdiction alongwith their load, number of street light points and also submit your plan of installing single phase 10 KVA and 16 KVA dedicated transformers with communication facility/RLMS units for carrying out street light energy monitoring and control. The number of transformers required for this purpose should also be intimated to this office so that the requirement may be transmitted to CGM/MM, DHBVN, Hisar.
