Under DHBVN.

DSM INSTRUCTION NO.V

Memo No. Ch.5/EA-105

Dated: 25.03.2008

Subject: Supply of technical system parameters.

In order to maximize efforts of conservation of energy at 11 KV feeder level, sub stations level and operation circle, it has been decided by the DHBVN management that system technical parameters should be included alongwith monthly report of interface meter proforma and bus bar proforma of all the six operation circles. DHBVN management has already instructed to install downloadable type meters on each & every 11 KV feeder. These feeder meters are now sending technical parameters also to the Nigam control room at Hisar.

In view of the above you are requested to ensure the supply of following technical parameters of 11 KV feeder also:-

- i) **LOAD- i.e. minimum load, maximum load and average load with date & time during the month.**
- ii) **POWER FACTOR- i.e. minimum power factor, maximum power factor and average power factor with date and time during the month.**
- iii) **VOLTAGE- i.e. minimum voltage, maximum voltage and average voltage with date & time during the month.**

Compliance of these instructions be made to monitor various technical parameters of all feeders.

**GM/DSM-Cum-Energy Audit
DHBVN, Hisar.**
