Memo. No. \_\_\_\_\_

Dated:

**Subject:** Administrative approval for outsourcing the work of preparation of Project Reports in respect of Segregation/ bifurcation of 11 KV Rural feeders into separate rural domestic and agricultural feeders and implementation of HVDS scheme in villages.

As per direction of State Government, the work for segregation of all the rural feeders into separate feeders for domestic and agriculture consumers is required to be carried out within 18 months. Further, there is proposal to convert existing LD system of all the villages as well as unauthorised colonies in the urban areas in HVDS so as to curb the theft and loss of energy which are rampant in such areas.

The above both works involve preparation of technical drawings of existing system of all the 11 KV feeders and that of LD system of all the villages as well as unauthorized colonies in urban areas as a first step. This is essential requirement for preparation of technical project reports to facilitate the submission of documents for arrangement of loan through various agencies, such as, NABARD, REC etc. This is a time bound programme. However, due to shortage of staff with Operation Circles, it would not be possible to prepare the technical drawings/project reports in time as such, it has been decided that the above works may be out sourced and can be got carried out through a team of five persons, one being Electrical Diploma Holder or having sufficient experience in preparation of estimates and drawings of the rank of the JE or above. As many teams may be outsourced as required for preparation of the schemes within a month.

The team must have following qualification:

- a) Person/Registered Co-Operative Society or any other Agency having employed a person with Electrical Diploma Qualification or other person having sufficient experience (Minimum of 10 Years experience) for preparation of estimates/drawings not below the rank of JE.
- b) 4 no. persons having ITI/Electrical/Drawing qualification having knowledge of Autocad System for preparation of drawings and project reports.

Each division is authorized to incur the expenditure up to maximum of Rs. 3.00 lacs for getting the above works carried out through out source, as above including preparation of complete project reports.

This issues with the approval of M.D., DHBVN, Hisar.

**Superintending Engineer/Planning,  
for C.E./PD&C, DHBVN, Hisar.**
