

DAKSHIN HARYANA BIJLI VITRAN NIGAM

Sales Instruction No. 21/2014

From

CE/Commercial,
DHBVN, Hisar.

To

All CEs/SEs/XENs/SDOs/OP,
JEs-I, Incharge Sub office, in DHBVN,

Memo No. Ch-21/SE/Comml./R-17/356/2005/F-18

Dated: 13/11/2014

Subject: Release of Pending HT connections in the lean period.

Keeping in view the large pendency due to system constraints, the Nigam has decided to release the pending HT connections of all categories up to the load of 500 KVA wherever capacity is available during the present lean period. In order to rule out any apprehension of overloading during peak season, an undertaking from such consumer shall be taken in the form of an affidavit that, if required, his load shall be restricted wholly or partially to avoid overloading of the system. SDO (OP) concerned is competent to allow the release of such connection. However, it must be ensured that loading on power T/F does not exceed permissible limit allowed by Nigam under any circumstances.

It is further decided that seniority of the HT connections shall be maintained S/Stn. wise by the SDO concerned. The above facility to release the connections upto load of 500 KVA during lean period shall remain in force upto 31.03.2015.

The above instructions should be brought to the notice of all concerned for careful and meticulous compliance with immediate effect.
